QU'APPELLE.

THURSDAY, JULY 23rd, 1891.

There has been considerable com-

motion among the civil servants in

the Department of the Interior at

Ottawa of late, and quite a number

of them have been suspended pend-

ing a thorough investigation into

the irregularities which it is alleged

have been going on for some time

past. The Opposition Press through-

out the country attempt to paint

the administration of this depart-

ment in the blackest colors, and

would fain make it appear that they

alone were entitled to the credit of

discovering these irregularities. The

attitude of the Government, how-

ever, in this matter is convincing

proof that it is most anxious to

have every official, whose conduct

has not been strictly upright,

punished and dismissed from the

service. Those parties guilty of

misconduct should be punished, and

the Administration deserve the

greatest praise for the zeal shown in

the prosecution of the present en-

quiry.

The charges made are largely for

acts of wrong doing committed pre-

vious to the appointment of the

present Minister, but Mr. Dewdney

has expressed the determination

that no matter who the official is

or when the alleged fraud was per-

petrated, the conduct of the accused

will not escape the most searching

investigation.

THE PROMOTION OF THE

RAILWAY SCHEME.

The promoters of the Wood

Mountain and Qu'Appelle Railway

waited on the Hon. E. Dewdney a

few days ago in reference to the

subsidy asked for the road. The

deputation was warmly received by

the Minister, who explained the

exact position the Government were

in, and what the policy would be

with regard to subsidizing the line.

The deputation received the strongest

assurances that the Minister was in

heartily accord with the scheme, and

that he was doing all in his power

to promote it.

It is scarcely probable that the

Government will grant any cash

subsidies to railways this year, but

if the work of construction is com-

menced, this road will stand a very

good chance when the matter of

subsidies is considered. The pro-

motors are asking for the land grant

to be doubled from here to Fort

Qu'Appelle, and communication

entered into with Mr. Holt regard-

ing construction. If Mr. Dewdney

gets his colleagues to consent to

this grant we may expect to see

operations commenced on at least

this portion of the road within a few

weeks.

The strong opposition given to

the Hudson's Bay Railway Bill in

Parliament by the leaders of the

Liberal party of Canada shows

plainly that party is no friend to

the North-West and Manitoba, and

that any assistance towards the

development of our great country

must in the future, as it has in the

past, come from the Liberal-Con-

servative party.

Little Local Links in the Town's Chain of History.

QU'APPELLE.

—Mr. B. Swears brought a splendid sample of new potatoes to our office last week.

—The sports have all returned from the races at Regina well pleased with the results.

—Mr. Grieve had radishes large enough for use twelve days after the seed was sown. Who can beat this?

—That wonderful machine, Edison's phonograph, was in town on Monday, and the operator did a fair amount of business.

—Rev. J. Ferry will dispense the Sacrament of the Lord's Supper in Edgeley church on the 26th inst., at the usual service hour, 3 p. m.

—Wheat is pretty well headed out throughout this district, and if the weather is favorable harvest will be on during the last weeks of August.

—His Honor the Lieutenant Governor returned from Ottawa a few days ago, where he has been attending to important duties in connection with his position.

—Parties wishing cabbages, cauliflowers, carrots, green peas, potatoes, parsnips, parsley, etc., can be accommodated by leaving their order with Mr. H. Mitchell.

—Mr. Hayter Reed, Indian Commissioner, returned from a trip to the Indian reserve in Treaty No. 7 on Monday, and reports everything satisfactory on the western reserves.

—Col. McDonald, Indian agent at Crooked Lake, was in town on Monday. He reports a splendid crop on his reserve. The Colonel's many friends are always pleased to see him.

—Hon. Senator Perley is home on a short visit. He is always found taking an active part in all matters affecting the North-West, and no doubt his trip is more of a business nature than otherwise.

—Ex-Warden Redson, of Manitoba Penitentiary, died at Ottawa on the 17th. Mr. Redson was well and favourably known in Manitoba and the North-West. He took an active part in the rebellion of '85.

—The Presbyterian annual Sunday school picnic, which was announced to take place on Tuesday, was owing to rain, postponed until Wednesday. The weather was even then not favorable, and it was held in the Immigration Sheds and passed off very pleasantly.

—On Thursday morning a serious accident, which resulted in the death of brakenan Edward Johnston, happened on the C.P.R. near Moosejaw. An empty gravel train ran over two cows, and the shock threw several of the flat cars off the track. Mr. Johnston was thrown off and instantly killed.

—We understand Rev. J. Ferry has obtained leave of absence from his Presbytery to enable him to obtain proper advice respecting his sight. He wishes to consult some specialist. He is anxious to leave at the end of this month if possible. Members of the Presbytery have kindly consented to supply the pulpit.

—Messrs. Bulyea and Tease lost their band of horses on Sunday last, and have not yet recovered them. The band consists of seven mares, three bays, one brown, one grey, one roan, and a black. One bay and the black have white on the forehead, and five of the horses are marked with the same brand. A reward of \$15 is offered for their recovery.

—Professor Robertson, of the Ottawa experimental farm, is announced by the Press to be in Brandon after the 22nd inst.; also that the dates of his different visits are not yet fixed. Would it not be advisable for the South Qu'Appelle Agricultural Society to invite him here to give one of his lectures on dairying. These lectures are very instructive, and are sure to do an immense amount of good.

—Mr. L. A. Ferguson, of Sunny South School District, has returned from a holiday tour in the Fairmeade settlement, where he is well known, having held an appointment near the place prior to coming to this district. His father, Mr. A. Ferguson, of Cobourg, who paid us a visit a short time ago, is still in the North-West, and has gone from Winnipeg to Calgary. He does not return east for about a month.

—We were surprised the other day to see a return of the once very familiar freight carts on our streets again winding their way to the station to be loaded with freight for Prince Albert. Mr. T. J. Agnew, of Prince Albert, is here with teams for three carloads of goods, and it is reported that other merchants of that town contemplate following his example. At this season of the year freight rates by rail are usually low, and probably this is Mr. Agnew's reason for returning to the original means of transportation.

—Mr. Brydon is already using beets, peas, cabbage, cauliflowers and carrots from his garden.

—Mr. Acton Burrows, president of the North-West Farmer Printing and Publishing Company, offers a handsome solid silver cup value \$50 for the best head of short-horns, consisting of a bull and four females for breeding purposes, to be shown at the Winnipeg industrial exhibition from Sep. 26th to Oct. 2nd. Entries must be sent to the secretary-treasurer of the exhibition at Winnipeg not later than Sep. 14th. The cup will be suitably engraved with the name of the exhibitor, particulars of the competition, etc., so as to be a permanent trophy of the prize ring and it is expected there will be strong competition for it.

SINTALUTA.

Splendid weather and no mosquitoes.

Mr. Dan Raiton's son was thrown off his racer, Kitty May, and was rather badly bruised. He, however, is recovering rapidly.

Our picnic at Spring Coulee was a grand success. There was an interesting programme of sports: horse and foot racing, croquet, etc. A lively game of baseball between Sintaluta and Wolsley resulted in a victory for the strangers of three runs. Score 18-15.

INDIAN HEAD.

Farmers who brought in stock on market day, were greatly disappointed to find no buyers present.

The enthusiasm of the members of the Rifle Association keeps up, and the scores are steadily improving.

The proprietorship of the new hotel has changed hands, Mr. East, of Fort Qu'Appelle, having brought out the interest of Mr. MacGilvray.

At a meeting called to consider the scheme started to erect in the North-West Territories a memorial in honor of our late Premier, a motion was passed expressing most hearty sympathy with the movement, and a committee formed to receive subscriptions. Subscriptions limited to one dollar.

REGINA RACES.

Owing to the heavy rain on the 12th the races were postponed until Thursday, the 16th, and even then the track was not in very good condition, and an occasional shower through the day did not improve it. There was a large crowd of people present, and they had the satisfaction of witnessing the best contested races ever seen in Regina. Considerable money changed hands, and many of the knowing ones failed to guess the winners. The judges were Capt. Allan, Sheriff Benson, and Mr. J. A. Kerr, and their decisions gave general satisfaction. Messrs. Lindsay and Pattinghall acted as starters, and Messrs. Creamer and Paterson held the watches.

THE SINGLE TAX.

The single tax may relieve poverty but as a remedy for pauperism it cannot compare with Hays's Yellow Oil, the old reliable cure for rheumatism, neuralgia, cramp, sore throat, lumbago, folds and inflammatory diseases.

SCHOOL EXAMINATION AND PICNIC AT EDGELEY.

The public examination of the scholars attending Edgeley school took place on the 15th inst. The children proved themselves to be well advanced in the many subjects on which they were examined, which speaks volumes for the management of their teacher, Mr. Maclean. After the examination, there was quite a gathering of settlers and visitors near a neighbouring bluff, where preparations had been previously made for having a good time. Full justice was done to the ample spread provided by the ladies, and then followed a programme consisting of dialogues, recitations, readings, songs, etc., all the items being capital carried out. All kinds of athletic sports were indulged in, and not the least amusing event of the day was a tug of war between the married and single men, the benedicts finally proving the weaker party. The weather was very favorable, and a most enjoyable time was spent.

EDGELEY AND ITS CROPS.

The following letter with an enclosed contribution reached us from the Edgeley district:—
Dear Sir,—Enclosed please find "item" evidently intended for your valuable paper. Judging from the way I came across the "item" it must have been dropped from the note book of your Edgeley correspondent, most likely during a temporary fit of excitement while endeavouring to rid himself of the attentions of his mosquito tormentors; perhaps, indeed, he flung it away as unworthy of being sent to your paper, but I forward it for him. He can thank me or not, as he pleases, and you, of course, will please yourself as to insertion. Wishing continued success to your paper.
Respectfully yours,

"Items for Progress. Little local links. Edgeley farmers are getting sort of mixed. They don't know yet or mind if it is the wheat or the mosquitoes that are going to turn out fifty bushels to the acre, but if things go on as they are now doing one would be safe in betting on both. As the 'achers' are numerous out here what a crop there must be!

To be disposed of right away, cash payment no object so long as immediate delivery is taken, an unlimited and assorted stock of mosquitoes, all warranted in sound healthy working condition. Fresh arrivals daily. Great chance for those on the look out for 'suckers.' Bull punches and cattle men have special brands warranted to 'get there.' Bluff farmers can also supply them 'all very fine and large.' No reasonable offer overlooked.
The correspondent is evidently suffering from "snake" on the brain, as his letter is a regular "smudge."

SUNDAY OBSERVANCE.

A bill to secure the better observance of the Lord's Day has been agreed upon by the special committee, which has made extensive amendments to the original bill as submitted to it, chiefly by striking out clauses considered too stringent in their provisions and not practicable in application to some provinces of Canada, with many of whose established customs it would interfere. The amended bill reported from the committee prohibits work and traffic on Sunday as follows: Printing, publication and sale of any newspapers, "provided, however, that necessary office work may be performed after nine o'clock in the evening of the Lord's Day for the purpose of facilitating the publication of a Monday morning issue of any daily newspaper"; the opening of any canals in Canada to traffic or business from six to ten on Sunday, but this provision may be suspended in any year by order-in-council after the 15th day of October. No railway train is to be loaded at any railway station or moved from one station to another, nor any freight train permitted to start from any railway station in Canada on Sunday, except such as are made up of live stock or perishable freight, and where the despatching of trains to relieve sufferers by accidents or fire is deemed necessary. But through passenger trains each way with their necessary connections shall be permitted on any trunk line in Canada, but merely local passenger trains are prohibited. A sub-section to this provides that at such time as the laws of the United States shall make corresponding provision no through freight in transit from one point on the frontier of the United States to some other point on the frontier shall be allowed to pass over Canadian roads on the Lord's Day, except live stock and perishable goods. Sunday excursions by steamboat or railway are prohibited. The penalties provided for infringement of the act are heavy fines and imprisonment in default of fines not forthcoming promptly after judgment.

NORTH-WEST TERRITORIES EXHIBITION.

To the Editor of THE PROGRESS.
Dear Sir,—I am not, as reported in your issue of the 9th inst., urging the Government to build a building at Regina for North-West exhibits. I am, however, endeavouring to show the Government the advantage it would be to the North-West Territories to have an Agricultural Territories Exhibition held at Regina in the fall of 1892; and I have reason to believe if the North-West Assembly will take the matter up at its next session in a practical manner that the Government at Ottawa would grant \$10,000 towards it. I have had a hint in that way, but not a promise of the grant. I hope the Assembly will move in the matter. I had to drop my scheme this season, because I was too late starting, and the Parliament at Ottawa was too late convening to make it possible. It can be done successfully if the right move is made, and I will give the promoters my best assistance in helping to get a grant in aid of it.

W. D. PERLEY.

Senate Chamber, Ottawa, July 13th, 1891.

SIR CHARLES' SCHEME.

TORONTO, July 17.—Cables from London say the Council of the Imperial Federation League has selected a strong committee to consider the definite proposals for Imperial Federation made by Sir Charles Tupper in his recent speech. The committee, which will proceed to business immediately after the holidays, will probably not conclude its labors until well towards the close of the present year. It is noted as significant that a pronounced free trader like Sir Lyon Playfair and other well-known Liberals have shown themselves ready to consider these and similar proposals without prejudice. This seems to confirm the assertion of the Times that "England is beginning to see that free trade was made for man and not man for free trade." Sir Charles says he is surprised at the support his scheme obtains each day. He declares his first proposal that has been made meets all the French-Canadian objections to federation scheme in general. This federal movement is tending to allay the feeling aroused in England by the outspoken declarations of Mercier in the Canadian Gazette and elsewhere that Canada will soon seek her independence through friendly negotiations.

A NEW RAILWAY BETWEEN DETROIT AND CHICAGO.

Whatever doubt there may have been as to the Canadian Pacific's schemes to get from Detroit to Chicago over its own lines is now scattered to the winds. The work of construction will commence this week. It will begin near Alexis, near the State line and the junction of the Lake Shore, Michigan Central and Toledo and Ann Arbor railways. The plans are for the road to be started both westward and northward at the same time, and continue until Chicago and Detroit are connected. Donald McLean, of New York, who represents the C. S. Brice and Daniel B. Hill interests of the syndicate, and R. C. Bell, William Fierman and Benjamin Reynolds, of the Canadian Pacific, Chief Engineer Engallis and G. G. Hadley, R. R. Kinkade, Sylvester Lamb and Engineer Paul, of the old Toledo and Western Company, are now making a tally-ho trip over the line. The road is to be known as the Toledo and Chicago Ice Line. It is now stated it will be a part of the greatest trunk lines in the world. The C. P. R., combined with the immense Brice and Richmond Terminal interests, will make three direct roads from Chicago to the Atlantic.

A GRANT TO A PRINCESS.

The Radicals are wild over the rumor that it is intended to ask Parliament for a grant for Princess Louise of Schleswig Holstein, granddaughter of Queen Victoria, who a fortnight ago was married to Prince Aribert of Anhalt under the auspices of Queen. While the brides thrifty grandmother would doubtless be glad to see the princess provided for by Parliament, it is not at all likely she would brave public opinion by asking for what would unquestionably be refused, and it is certain that Lord Salisbury would never advise or consent to such a request. Nevertheless a suggestion has been made in all seriousness, as a feeler. The Radicals are eager for a verbal battle, which the introduction of such a matter in Parliament would precipitate. In such an event the Radicals would not be left to conduct the fight alone. Nearly all the Liberals and a great many Tories would join them in opposing the scheme, and thereupon the question would be the least-knelt of all future grants to members of the royal family, however near to the head.

CAUGHT IN A SHAFT.
A frequent source of accident is found in shafting. Great care should be used and a supply of Hays's Yellow Oil kept on hand in case of wounds, bruises, sprains, lumbago or sore. It is the promptest pain reliever obtainable.

A LOW RATE.

The first laborers' excursion from Ontario to Manitoba leaves Toronto on Tuesday, the 28th. The fare from any station in Ontario to Deloraine, Methven, Hartney, Binscarth, Moosomin, or any intervening point West of Winnipeg is \$15. Purchasers of these tickets receive certificates to enable them to return up to November 30th for \$13 each, providing they have been working as farm laborers for one month previous to their return.
